Call information

This is a call for proposals for EU action grants in the field of Citizens' engagement and participation under the Citizens, Equality, Rights and Value Programme (CERV). The **CERV programme** provides funding for citizens engagement, equality for all and the implementation of rights and EU values. Its general objective is to protect and promote the rights and values enshrined in the Treaties, the Charter of Fundamental Rights of the European Union and in the applicable international human rights conventions.

The **objective of this Call for proposals** is to promote citizens' and representative associations' participation in and contribution to the democratic and civic life of the Union by making known and publicly exchanging their views in all areas on Union action. It supports projects promoted by transnational partnerships and networks directly involving citizens. These projects will gather a diverse range of people from different backgrounds in activities directly linked to EU policies, giving them an opportunity to actively participate in the EU policymaking process in areas related to the programme's objectives.

The call provides an opportunity to broadly cover a variety of policy areas, and to contribute to the promotion of EU values, the rule of law, fundamental rights and democracy. While maintaining a bottom-up approach, there will be a specific **focus** on:

- the **2024 European Parliament elections**, which are central to strengthening and nurturing democracy in the EU, with further efforts needed to promote the participation of citizens in the elections. This priority could also promote EU citizenship
